

FACT SHEET

QAYAQ CONSTRUCTION

Heavy Civil Construction & Resource Development

Qayaq Construction is an Alaska based heavy civil construction company with headquarters in Anchorage Alaska. Qayaq specializes in building roads, pads, airports, underground utilities, as well as resource development projects across Alaska.

Qayaq's focuses on unique and challenging, often remote projects that improve horizontal infrastructure throughout Alaska.

Our projects are often administered through Low Bid, Design-Build, or the CMGC process with the ultimate goal of creating positive relationships with our clients and delivering projects safely, ahead of schedule, and under budget.

VISION

Our vision is to build a first class construction company with a valued reputation, pride in its people, and presence throughout Alaska.

MISSION

Our mission is to bring value to our shareholders, customers, and employees by improving communities through infrastructure and completing projects in a safe, efficient, and cost-effective manner.

PEOPLE

Qayaq believes in hiring and retaining the highest caliber personnel who exceed in challenging environments, take pride in their work, and excel at solving problems through creative, innovative thinking.
