

# FACT SHEET

## UIC Government Construction, LLC

UIC Sanatu is an SBA 8(a) certified general construction subsidiary under UIC Government Construction, LLC, one of three holding companies for one of the largest Alaskan Village Corporations, Ukpeaġvik Iñupiat Corporation. We specialize in project management, general contracting, pipeline and tank construction, earthwork, civil construction, base operations and maintenance, communications solutions and services. Projects range from fuel system facilities at military installations. We offer a full-range of construction-related services including pre-construction and pre-planning, design-build, construction management, general contracting, and long-term facilities management.

UIC Sanatu has experience with the logistical and environmental challenges that are unique to the Arctic and remote regions of Alaska along with other remote locations such as Wake Island. Our project management systems and delivery methods under a cultural framework of teamwork offer accountability and creativity allowing clients the best value in construction services.
